PROVISIONAL EQUIPMENT LISTS

for

1951 MOTOR CYCLES

Information contained in these lists is provisional and should be used for reference purposes only until the appropriate illustrated list is available, or until equipment information is included in the LUCAS Motor Cycle Catalogue, Publication No. 716.

All motor cycles are listed in alphabetical sequence with spare parts under the unit heading. It should be noted that machines manufactured by the Associated Motor Cycle Co., Ltd. (A.J.S. and Matchless), are grouped under A.J.S.

A unit application list is provided for ready reference to the spare parts of any unit in cases where only the Service Reference and type of the unit are available and the make and model of the motor cycle are not known.

UNIT APPLICATION LIST

for

1951 MOTOR CYCLES

If spare parts for say a 20012 Dynamo are required, reference to this list will indicate that this unit is fitted to Douglas and Ateliers Gillet ; equipment lists for either of these machines will give the spare parts for Dynamo 20012. The same procedure should be applied in all cases where only the Service Reference of the unit is known.
